

Let's Start Drawing Pictures!

Drawing pictures is to enhance the sensitivity against the colors, the development of the sense of sight, and the rich expression.

Babycolor is created to encourage the intellectual training.

The free and easy lines which can be drawn by crayons with all kids' might, and the carefree studded dots, Moreover, the colorful tints. The kids will become the artists during the drawing time!

It is the drawing time for kids to do it for the first time.

Let's play together. You will be sure to find out a new discovery.

Easy-to-hold Design and Hard-to-stain Materials

Babycolor is the very special crayons which have the unique shapes, unbreakable, hard to stain by the long research and development. The raw materials can be used very safe ones because kids always use them. You can clean your clothing with soap, once you get stains on them.

Practice for tidy-up for the first time

We have produced bigger bags which are contained the crayons, a little bit We intend to include the practices to tidy up the crayons and others. Even if kids Include all crayons in the bags, there is some room. It is wonderful for kids to include their favorite toys, and go out with them.
